Company Overview:

Skyline Drive Technology, LLC (SDT) is uniquely positioned as one of the nation's first CDC-owned businesses granted SBA 8(a) certification to provide information technology services. We offer a wide range of services including website design, IT training and consulting, data entry and customer relationship management, software applications development and installation of wireless technologies.

Through strategic relationships established to expand our capabilities, SDT can address almost any IT outsourcing need and can access a wide variety of GSA schedules.

One of these relationships is with Applied Composite Technology and Christensen Arms who specialize in filament winding, compression molding, hand lay-ups and Autoclave curing with specific applications relating to the manufacturing of aerospace products, lightweight gun barrels and prosthetic devices. (see www.utahshootingsports.com/christensenarticle.htm).
